

17 - 21 October 2022

Harnessing science, technology and innovation for transforming our agrifood systems

Special Event organized by  **crea**
Council for Agricultural Research and Economics

AGRIFOOD SYSTEMS BASED ON CIRCULAR ECONOMY

Wednesday 19 October 2022, from 9:30 till 13:30

Roma, Ministero della Cultura, via del Collegio Romano, 27
Sala Spadolini - Live streaming on [CREA YouTube channel](#)

During the FAO Science and Innovation Forum, CREA organizes a Special Event, with the aim of discussing how to meet the goals of the UN Agenda 2030, specifically focused on GOAL 12 "ensure sustainable consumption and production patterns". The issue will be analyzed with a dynamic debate on science, technology and innovations, using a multi stakeholder approach.

This Special Event contributes to the FAO Science and Innovation Strategy by sharing experiences, best practices, lessons learned and case studies from national and local contexts, also strengthening the connection between Research and End-Users.

8:45	Registration
9:30	Welcome addresses
9:50	Opening scientific work
10:15	Round table 1 - Biodiversity for sustainable food systems
11:15	Round table 2 - Healthy diets for a healthy planet
